

Bowls Canada Boulingrin National Event Rotation Schedule

- Schedule based on the following principles:
 - * East West balance, as much as possible
 - * Opportunities for each province to host the events they are capable of hosting over a ten-year span
 - * Schedule does not place undue burden on volunteer and other resources
 - * Opportunities for a variety of clubs to host events within a province
 - * Rotation works towards reflecting the total weighting of membership distribution with respect to hosting opportunities, if each province is able to host at least one event in a cycle
 - * Recognition that BCB has the final decision on the schedule and that extenuating circumstances within provinces may result in changes
- The schedule took into consideration each province's desires and constraints for hosting various events
- Each provincial president was given opportunity to address their province's' desires and constraints as much as possible while meeting the above principles and each president gave their approval of the schedule

LBAA's long-range plans for AB include working with the western provinces to plan some type of event like the *Atlantics* even if just to take the place of the dropped Triples Championships; long-range we are also pursuing some type of international event hosted in Alberta.

AB has been given the 2023 Canadian Mixed Pairs with the view that the Royal club in Edmonton would host that event in the year they celebrate their 100th Anniversary.

We have a long time to wait before we get to host the Youth Championships but there seemed no way to fit it in earlier.
